

Introducing Take Two - 2026/27

Our 5 day/6 night fishing package, including 5 full days of guiding, accommodation for 6 nights and most meals fully catered. Simply select a week, confirm a booking and book your flights.

We endeavour to make it as easy to get amongst the fish as we can. Once you've secured your dates, book a flight, arrange a hire car and we will see you when you arrive in Twizel for the start of your week.

With a 4 Bedroom/ 2 Bathroom house to cater for a group of 4 or two groups of 2, we will have delicious and nutritious meals awaiting your return at the end of each days' fishing. Add a lovely warm shower and an icy cold beer or glass of wine and the memories of the days' fishing can be relived around the lodge at night. "Embellishments" are expected and encouraged!

From Wild Rivers

to

Spinner Sippers

Some streams hold lots of fish, others but a few. However, it pays to keep your eyes peeled for all opportunities, from spinner sippers and cicada guzzlers to Woolly-Bugger munchers hiding under the banks and everything in between, the fun either way, is in the hunt. On the inside edge of a seam, or a quiet backwater...

Wherever you find them, let's go get 'em!

TRIP DETAILS

"Take Two" trips will be conducted continuously from early in the trout season **Sunday November 8th 2026** through to the close of our fishing season on **Saturday May 1st, 2027**.

Trips commence on **Sunday evening** on arrival into Twizel. You'll need to make your own travel arrangements to Twizel from the airport of your choosing – Queenstown is the closest, but Christchurch is only a further hour or so away. Included in the overall price are 5 days of guiding, all meals and accommodation (except whilst in transit - including the first Sunday night meal), together with transport to, from and on the stream. Make your return flight on the following Saturday afternoon, or maybe extend your trip and discover a bit more of this wonderful country.

OVERALL PRICE: Our price per person for **five** days of guiding and **six** nights of accommodation is NZ\$4895.00, per person. This price is *inclusive* of 15% GST.

DEPOSIT REQUIREMENTS: NZ\$2000.00 per person, is required at the time of booking for this season. This allows us to cover various costs associated with the time between now and your departure. This deposit will also secure your position in the "Take Two" program, at a time when there is a lot of demand for the few available weeks. Deposits can be paid with Credit/Debit Card*, Direct International Deposit or NZ\$ Draft.

***Please Note: All Credit/Debit Card payments will attract an extra 3% booking fee, payable at the time of payment.**
Bookings will only be made permanent once a deposit has been received.

PAYMENT OF BALANCE: The remaining balance is payable **45 days prior to the commencement of your trip**.

CANCELLATION: In the event of a cancellation prior to the 45 day period mentioned above, a full refund of the deposit will be given, unless you choose to transfer to an alternative date that season or the following, should one be available. If you need to cancel your trip inside the 45 day period above, for any reason, you will have to claim against your own travel insurance. Therefore, please ensure you have comprehensive travel insurance cover, in case of cancellations. However, if an alternative group can be found within the 45 day period, we will issue a refund, less 10% administration fees, or offer a full credit for a later date that season, or the following season, should one be available.

LIMIT TO NUMBER OF PARTICIPANTS: No persons outside your party will be included on your trip and your party will have the sole and exclusive services of your guide throughout your stay. However, up to two parties may be accommodated at "The Angle" at any one time.

Whilst individual anglers are not catered for in the "Take Two" program, from time to time, single places do occur. Although trips will not start with only one participant, it may be possible to slot in two or more individuals to make up a "Take Two" trip. It is **not** the responsibility of Spry Fly NZ to find a partner for individuals however, please contact us to see if there are any potential places available for single participants, otherwise a "single supplement" will be payable.

ALTERATIONS TO SCHEDULES: Because of the possibility of all sorts of unforeseen circumstances, Spry Fly NZ reserves the right to alter or amend any advertised details of any trip at any time when/as this is seen to be in the best interests of all concerned.

TRAVEL INFORMATION

AIRLINE BOOKINGS: Whilst we can offer limited travel advice in this matter, Spry Fly NZ does not take responsibility for the booking and payment of your airline travel, nor any land based travel/accommodation prior to the commencement of the trip. Do remember to advise us of your arrangements once they have been made.

TRAVEL TO AND FROM YOUR HOMETOWN TO DEPARTURE POINT: Again, this is your sole responsibility. The most convenient and cheapest method is a hire car from the Airport for the week and whilst the car will mostly be sitting in the driveway, you will likely find no cheaper or more convenient modes, as Twizel is a difficult town to get to via alternative methods.

ON LOCATION TRANSPORT: Spry Fly NZ will provide transport to and from the fishing locations around Twizel each day.

PASSPORT & VISAS: A passport *is* required - persons not holding a current Passport should commence procedures to obtain same not less than six weeks prior to departure. Passports will require at least 6 months validity prior to trip commencement. Visas aren't required by holders of Australian passports at the time of writing - others should make independent inquiries as to their status in this respect. Your address whilst in Twizel is: 59 Jollie Road, Twizel, 7901, which you'll need to note on your arrival card.

TRAVEL INSURANCE RECOMMENDATIONS: From time to time accidents and problems might occur, or plans might have to change. Therefore, **travel insurance is strongly recommended** to cover persons, property, public liability, sickness and non-refundable deposits. Please make independent inquiries regarding travel insurance. Note that since fishing rods are not usually permitted as cabin baggage, suitable packaging is essential.

CURRENCY REQUIREMENTS: Participants should carry currency for purchases of a personal nature in the form of: Visa, Bankcard, AMEX, NZ traveller's cheques, or NZ cash. (Foreign Traveller's Cheques or cash can be changed, but not always at the most advantageous rates.) There is a limited hours and functions bank in Twizel, however an ATM machine operates in the Town Centre. Currency exchange is only available at the airport upon arrival.

INCIDENTAL EXPENSES: Not included in the overall price of this trip are:

Personal expenditure for such items as drinks and snacks, incidental fishing equipment including trout flies and other expendable material, **fishing licenses (best to organise prior to travel and note that 5 single day licenses may be cheaper than a season license if you are only fishing for 5 days this season.** Visit the [Fish and Game Website](#) to purchase your license online before arrival. Travel documents, travel insurance and departure taxes, together with meals whilst in transit (including the first meal on Sunday night) and of course, souvenirs and other items of a strictly personal nature and are your sole responsibility.

"ON LOCATION" DETAILS

ACCOMMODATION: You will be housed at Spry Fly NZ's lodge "The Angle - Fly Fishers' Cottage", a dedicated homestay in Twizel, (approximately 60km south of Mt. Cook) in the South Island of New Zealand. **Broadband WIFI** is complimentary at the lodge.

ROOM SHARING: Bookings are on the basis of twin share accommodation; however, depending on booking numbers, single rooms are mostly available, with two bathrooms for the four bedrooms in the unit.

MEAL ARRANGEMENTS: Self service breakfast (with cereals, bacon, eggs, tomatoes and toast and spreads available) and a pre-prepared dinner are provided at the Lodge each day – meals are not served to you, so will require a bit of final preparation with full instructions. Take-away lunches are supplied each day, with 3 course dinners pre-prepared by our chef and kept for you to eat when you are ready. Sample dinner menus often start with a sharing plate or perhaps some smoked trout you have caught yourself, mains include Moroccan Lamb Shanks on couscous, Salmon Steaks with Salad, Lamb Roast or a Mild Beef Curry and desserts vary each week.

SPECIAL DIETRY REQUIREMENTS: Please advise us before commencing your trip, where medical or preference requirements dictate the necessity for special arrangements.

LOCATION: Your fishing will include the streams, waterways and lakes amongst the catchment areas of Lakes Tekapo, Pukaki, Ohau and Benmore, known as the Mackenzie Basin, and nearby catchments.

FISHING BACKGROUND: Warm, balmy days are to be anticipated through the main part of the season. Rivers are generally crystal clear and the fishing is a mixture of dry fly and nymph on the stream, with similar flies often the best alternative on lakes as well. Under some stream fishing circumstances, the favoured method is a nymph

(perhaps two in tandem) fished upstream beneath a strike indicator or dry fly. We endeavour to offer a wide variety of water conditions and scenery during the week. Both sight fishing and "blind" fishing will be used depending on your experience and conditions. Trout - both brown and rainbow - are in abundance in the Twizel area. Some rivers contain a mixture of the two species whilst others feature one species in particular. It may be possible to target a specific species if conditions are favourable. Weather conditions, especially windy days are usually the limiting factor when fishing, however your guide will endeavour to mitigate weather constraints wherever possible.

EQUIPMENT REQUIREMENTS:

Rods: 5 to 6 weight is recommended, with a spare if possible. You may also choose to bring Euro Style rods, or Switch Rods to complement your fishing, however, opportunities for these styles may be limited and Spry Fly NZ have a supply of these for your use, if you'd like to use or try them out.

Lines: We prefer Double Taper floating lines personally, but they can be hard to obtain, so stick with Weight Forward if you have one – don't make any special purchases! Whilst you may bring a matching full sinking or sink-tip line if you have one, they are not often used.

Leaders: Tapered leaders with 5 to 8lb tippets are recommended with 9' to 12' the normal length. Fluorocarbon tippets are being used more and more, so if you need some new tippets, pick up a bit of fluoro. Sink/Intermediate and floating leaders are worth bringing if you already have them, but don't buy any especially.

Spry Fly NZ can provide all "hardware" if required, with modern and well maintained rods, reels and flylines, as well as Goretex chest waders and wading boots – please reserve tackle in advance if required.

FLIES: With many opportunities for dry fly fishing throughout the season, it is important to remember to bring a variety of flies. The Cicada fishing in particular, is often quite spectacular over the summer. It is at this time that fish lose their inhibitions and feed from deep in the pools and runs. The peak season for cicadas is in mid-January and through to late February/early March. Floating a cicada down along a grassy undercut bank will bring big fish out of hiding for what are often, truly spectacular takes. It can be heart stopping when a big shape starts materialising out of the depths to take your fly. At right, rests a natural taken from the mouth of a fish which had succumbed to the stimulator at the top of the picture. Another favourite pattern is the deer hair body cicada in the middle, which proves almost unsinkable and totally irresistible to trout!

The following flies are to be seen as a general guide to flies only and many others are used and prove successful.

Nymphs – Weighted and unweighted Hare & Copper, Pheasant Tail (tiny, heavy #18 & #16), Cream and Green Caddis Pupae, Copper John, Peacock & Copper and tungsten bead heads of the above. Don't overlook the ubiquitous Peacock and Black as an indispensable snail imitation and many other nymphs are effective.

Dries - Parachute Adams, Klinkhamer Special, Goddard Caddis, Elk Hair Caddis, Royal Wulff, Stimulators &, Para Hackle Duns and Yellow Humpies, Blue and Green Blowflies and Cicadas for the warmer months.

Emergers – a variety of sizes and colours of your favourite emergers, including black, brown and grey.

Streamers – Tungsten Head Woolly Bugger (Olive & Black), Mrs. Simpson and if you are brave, a Sex Dungeon in Black.

All flies should be tied in a wide variety of sizes, from #12 to #16, with nymphs being in a variety of weights, from tungsten bead heads to un-weighted, and a variety of weight in between. A full range of flies is available in Twizel, upon arrival at reasonable rates. We fish smaller flies earlier and later in the season, is a general rule of thumb – consider nymphs well weighted but in the #14 to #16 sizes and sparsely tied.

FISHING CLOTHING & WEATHER CONSIDERATIONS: Some valleys in the area are subject to strong winds during Spring in particular, but pleasant, warm weather should be anticipated. Nevertheless, some warm clothing - especially pullovers and perhaps, thermal underwear is advised as is a suitable rain jacket (***please, no brightly coloured jackets as they do frighten fish!***), especially early and late in the season.

WADERS: Breathable waders are the most suitable option in nearly all circumstances. However, on warmer days, wet wading is a viable alternative, so a pair of wading boots or sandals and shorts or quick dry pants are advisable. Snakes are not a consideration in New Zealand! In the cooler months of October/November and April, waders are recommended for thermal protection. A limited supply of Gore-Tex waders and wading boots are available at no cost, with adequate notice.

FISHING CALENDAR: Whilst no guarantees can be given for the quality of the fishing at any one time of the season, nor for the types of weather situations to be expected, the following is a brief guide to what to expect at various times of the season.

Month	Nymph Fishing	Dry Fly Fishing	Water Conditions	Sight Fishing	Fishing Pressure	Weather	Guide Availability
Oct.	V. Good	Good	Higher & Cold	Good	Lowest	Cooler/wind poss.	Quieter
Nov.	Excellent	Excellent	Higher & Cool	Great	Highest	Mild/wind poss.	Very Busy
Dec.	Excellent	Good	Medium & Cool	Great	High	Warm/wind poss.	Busy
Jan.	Good	Good	Med/Low & Warm	Best	Medium/High	Hot/settled	Very Busy
Feb.	Good	Excellent	Low & Warmer	Best	Highest	Hot/settled	Very Busy
March	V.Good	Excellent	Low & Warmer	Good	High	Warm/settled	Very Busy
April	Excellent	V.Good	Med/low & cooler	Tougher	Lowest	Cold/settled	Quieter

PERSONAL DETAILS

CASUAL CLOTHING: Neat casual attire is suggested for evening meals and travel.

SUN PROTECTION: Yes, have some! SPF 30+ is strongly recommended. A broad brimmed hat not only protects from the sun, but also assists when searching for trout. Long sleeved shirts and U.V. block gloves are highly recommended. The sun is particularly ferocious in southern New Zealand throughout summer, even on overcast days.

INSECT REPELLENT: Not required under most circumstances although, sand flies can be troublesome in some limited areas - your guide will advise if it necessary and they carry insect repellent in their vehicle.

DRINKING WATER: Giardia (a parasite that results from human and animal contamination in some of NZ's waterways) can cause severe diarrhoea and stomach problems and other waterborne diseases are becoming more prevalent. **DO NOT DRINK WATER FROM THE RIVERS.** Drinking water is carried in vehicles on all trips, but you should also carry your own supply.

OTHER HAZARDS: Some rivers are *fast flowing* with some deep holes - usually relatively conspicuous, but care must always be taken when crossing rivers and fishing. Ensure you follow your guides' instructions carefully and make use of a wading staff and/or your guide to assist you where required. Do advise us if you are not confident in wading/around water.

SUGGESTED SPENDING MONEY CONSIDERATIONS: People ask "How much New Zealand currency should I take?" You might take say NZ\$100 for drinks, NZ\$264 (at the time of writing) for a full season non-resident fishing license, or you may consider 5 one day licences if only fishing for 5 days – buy on-line before you depart <http://www.fishandgame.org.nz> with (Central South Island being your location) and about NZ\$80 for flies, tippet materials and any other odd bits and pieces. You'll require perhaps NZ\$65 for a meal Sunday night and a snack or something here and there. Most people like to bring home a bottle of booze from the duty free shop so there's another \$70 gone! Add that all up and you're in for NZ\$500. Allow for an extra say 50% and you're up to NZ\$750. Major Credit Cards work throughout NZ and there is an ATM available in town.

Spry Fly New Zealand accepts Visa and Mastercard, but we do charge a 3% handling fee, so direct credit payments may be a convenient alternative payment method.

NEW ZEALAND CONTACT DETAILS:
